

cmake/TestRetSigType.c

```
graph TD; A[cmake/TestRetSigType.c] --> B[sys/types.h]; A --> C[signal.h];
```

A diagram illustrating the dependencies of the file `cmake/TestRetSigType.c`. The file is shown in a grey box at the top. Two blue arrows point downwards from the bottom of this box to two white boxes below it. The left box contains the text `sys/types.h` and the right box contains the text `signal.h`, representing the header files that the C file depends on.

sys/types.h

signal.h
