

eigensolver

```
graph LR; eigensolver --> gmx_fatal
```

A flow diagram consisting of two rectangular boxes connected by a horizontal arrow. The left box is shaded gray and contains the text 'eigensolver'. The right box is white and contains the text 'gmx\_fatal'. A dark blue arrow points from the right side of the 'eigensolver' box to the left side of the 'gmx\_fatal' box.

gmx\_fatal
