

include/types/block.h

```
graph TD; A[include/types/block.h] --> B[idef.h]; B --> C[simple.h]; C --> D[limits.h];
```

The diagram illustrates a sequence of header file inclusions. It starts with 'include/types/block.h' at the top, which includes 'idef.h'. 'idef.h' then includes 'simple.h', and finally, 'simple.h' includes 'limits.h' at the bottom. Each step is connected by a downward-pointing blue arrow.
