

src/gmplib/selection/evaluate.h

```
graph BT; compiler["src/gmplib/selection/compiler.c"] --> evaluate_h["src/gmplib/selection/evaluate.h"]; evaluate_c["src/gmplib/selection/evaluate.c"] --> evaluate_h;
```

The diagram illustrates the dependencies of the header file `src/gmplib/selection/evaluate.h`. It is represented by a gray rectangular box at the top. Below it, two white rectangular boxes represent source files: `src/gmplib/selection/compiler.c` on the left and `src/gmplib/selection/evaluate.c` on the right. Two blue arrows point from these source files up to the header file box, indicating that both source files include or depend on the header file.
