

check_vsite_constraints

clean_vsite_bondeds

cmain

```
graph RL; cmain --> clean_vsite_bondeds; clean_vsite_bondeds --> check_vsite_constraints;
```

The diagram illustrates a sequence of three operations in a flowchart. It consists of three rectangular boxes arranged horizontally from right to left. The rightmost box is labeled 'cmain'. A dark blue arrow points from the right side of the 'cmain' box to the right side of the middle box, which is labeled 'clean_vsite_bondeds'. Another dark blue arrow points from the right side of the 'clean_vsite_bondeds' box to the right side of the leftmost box, which is labeled 'check_vsite_constraints'. The 'check_vsite_constraints' box has a light gray fill, while the other two boxes are white. All boxes have a black border.
